

Thank you for your order

Now we've confirmed your order, it's time to get your old covers over to us so our team of skilled sewers can get going on creating your new ones.

When posting this bag back to us, you'll **need to include** the following...

- ✓ Your current covers for each piece of furniture we are copying.
- ✓ Any accessories such as arm rest covers or footstool covers that we're replacing.
- ✓ 4 simple measurements of your furniture. We've included a handy chart for you to fill in and return to us with your covers.

Measuring

How to measure

Complete our handy chart and return with your covers.

A few key measures will help our production team

Where you measure your furniture depends on if you have a **valance** on your current covers
(the dangly fabric skirt at the bottom of your sofa or chair)

1. Along the front of the furniture where the cover and valance meet

2. Along the side of the furniture where the cover and valance meet

3. Along the back of the furniture where the cover and valance meet

4. Between the arms at the front of the furniture

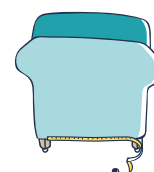

Measuring furniture **without** a valance

1. Along the front of the furniture at its base

2. Along the side of the furniture at its base

3. Along the back of the furniture at its base

4. Between the arms of the furniture

Packing

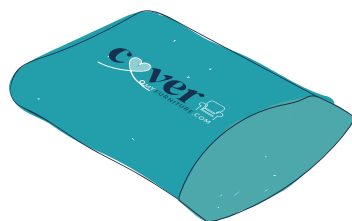

Packing & sending your covers

Once your measures are completed on the chart we have sent, you can pack it along with your covers in the bag provided. All our bags are biodegradable, so you can feel totally eco-friendly!

Top tip: For each piece of furniture, place the individual elements of the cover inside the seat box. This will keep it neat and tidy and make it easy to pack

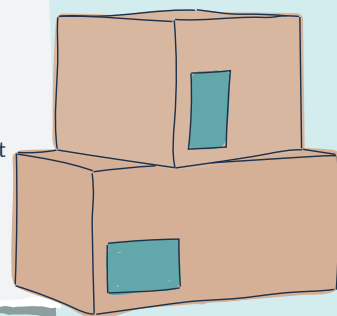

Postage

If you've chosen to take your covers to a UPS drop off point, simply head there and hand it over. You can check the closest drop off point to you by visiting: [ups.com/dropoff](https://www.ups.com/dropoff)
